XAMS User Guide

XAMS is our system for all e-Learning and e-Assessment. Within this User Guide you will find help on all activities within XAMS – if you need any further support, please contact the EUSR Support team.

For the XAMS Administrator:

- XAMS is fully integrated with QuartzWeb, our online registration system
- All activations are created in a Batch within QuartzWeb
- Bulk activations can be made within a Batch
- You can track an individual's progress in terms of completing e-Learning, scheduling and completion of e-Assessment and e-Assessment feedback reports

If you need additional XAMS Administrators, please contact EUSR Support for an XAMS Administrator Registration Form.

For individuals taking e-Learning or e-Assessment:

- XAMS can be used with all web browsers
- Access to e-Learning or e-Assessment is via the EUSR website or an activation email sent by an XAMS Administrator
- Individuals can resume e-Learning where they left off if they take a break (individuals do not have to re-take a whole module again)
- A free of charge re-sit is also still available immediately to the individual if they fail the e-Assessment
- XAMS is mobile enabled – the e-Learning or e-Assessment can be done on an iPad or tablet

1. QuartzWeb – Creating XAMS Batches

1.1 Initial Setup

If you do not already have a QuartzWeb login, the EUSR Support Team will need to create one for you. Unlike some other roles within QuartzWeb, only EUSR can create the role of XAMS Administrator within QuartzWeb.

NOTE: QuartzWeb users can have multiple roles assigned. Make sure you are logged in as XAMS Administrator as each role allows different functionality.

1.2 Logging into QuartzWeb

Each time you login to QuartzWeb you will be required to confirm that you will comply with the QuartzWeb Terms and Conditions of Use – attached as **Appendix One** in this user guide.

Login Credentials
To login you will require your EUSR ID number or the email address registered against your EUSR ID number. The EUSR ID number is six digits or less.

Forgotten your Password?
If you have forgotten your Password, then select the 'Forgotten your Password' link on the QuartzWeb welcome page and you will be taken to the 'Reset Password' page.

Enter your QuartzWeb Username (this is your EUSR ID number or registered email address) and click 'Submit'. An email containing a new password will be emailed to you. If you still have difficulty logging in, please contact EUSR Support.

Note: Passwords will only be reset by the EUSR Support team over the telephone and not by email.

- Include at least 1 digit
- Include at least 1 upper and 1 lowercase letter
- Include at least 1 punctuation character (BUT DO NOT USE the **£** the **$** or the **@** sign).
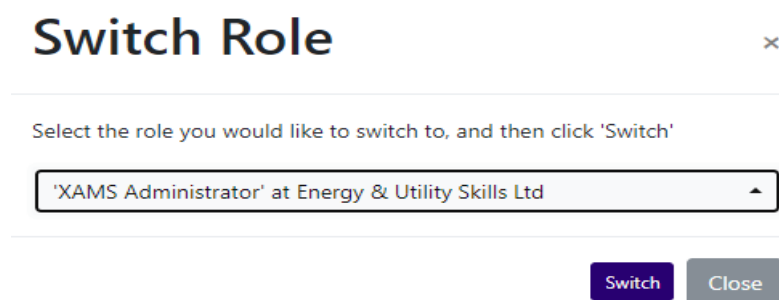

1.3 Switching Roles in QuartzWeb

Make sure you are logged into QuartzWeb as 'XAMS Administrator'.

If you have more than one role – because you need to perform different functions in QuartzWeb – you may need to switch from one role to another. If the XAMS Administrator role is not listed, please contact EUSR Support.
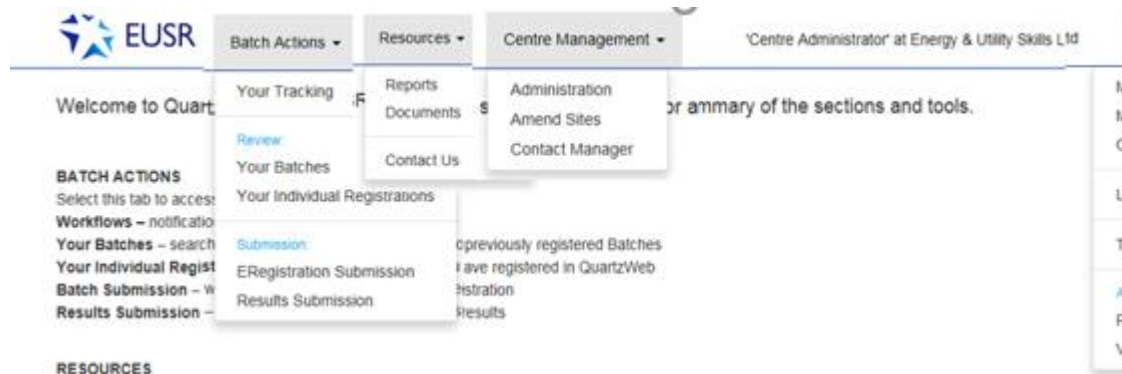

Note: anyone with a 'Lead Administrator', 'Administrator' or 'XAMS Administrator' role in QuartzWeb can create Batches BUT only an XAMS Administrator can create Batches for e-Learning programmes and have access to XAMS.

LOG IN

Once logged in, the individual must confirm their own details and they have read the instructions. For some e-Learning/e-Assessment programmes they may have to confirm additional statements as well.

☑ I have read and understood these instructions (please tick to continue)

This page confirms the e-Learning/e-Assessment programmes the individual must complete.

🎓 Your E-Learning

☆ National Water Hygiene

START →

Once 'Start' is selected, the e-Learning programme opens and displays the modules. The individual is then able to start.

To move onto the next module, the previous module must be completed first. Once all modules are completed the individual can return to the 'Schedules' page and sit the final e-Assessment.

Prior to sitting the e-Assessment, the individual must read the Assessment instructions.

Assessment Instructions

When you take your Assessment, you must follow all instructions given to you by your XAMS Administrator.

If you have any problems with your computer while taking the Assessment, you should contact your XAMS Administrator.

You must attempt all questions in the Assessment.

To start your Assessment, click on the start answering button.

You can answer the questions in the Assessment in any order and you can also change your answers to any questions before you submit your answers.

If you are not sure of an answer, go on to the next question and come back to it before you submit your answers.

The time you have available for the Assessment is shown in the top right-hand side of the screen. When you enter the last 10 minutes of the assessment, the time will change colour to warn you that you are running out of time.
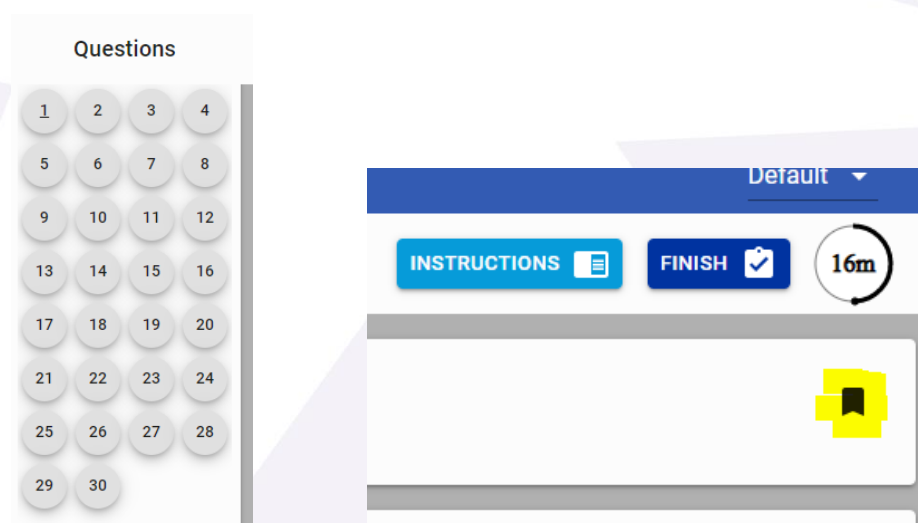

When you have completed the Assessment, click on the finish button to submit your answers.

The individual has a set time to complete the e-Assessment (this varies depending on the programme but will be between 30 and 45 minutes). If an e-Assessment 'times out', then XAMS automatically marks the answered questions and grades accordingly.

## 3.1 Flagging Questions

All questions can be selected from the left-hand side of the page. During the e-Assessment the individual can read through all questions. If unsure about a question, they can 'flag' that question and go back to it later in the e-Assessment.

Questions can be 'flagged' by selecting the 'Bookmark' icon on the right of the page - below where the time remaining is displayed.

If a question is 'flagged' the relevant tab on the left-hand side will highlight. These do not need to be 'unflagged' to complete the test.

Individuals have two attempts to pass the e-Assessment. If they fail the first e-Assessment, they will be given their marks score.

The individual may need to re-take the e-Learning modules they failed before they can re-sit the e-Assessment.

Individuals who pass the e-Assessment receive the on-screen message below:

> ✓ Congratulations you have passed this Assessment. You will be sent a confirmation e-mail and a registration is now recorded on EUSR - our online register. The register can be accessed at eusr.co.uk - available 24/7. An EUSR card will be issued to you.
>
> Your marks : 1 / 1
> Your result : 100 %

> If you have any questions, please contact EUSR Support team, available Monday 8.00am - Friday 5.00pm via email eusr@euskills.co.uk or telephone: 0121 745 1310 (select option 1).

Once completed, the results are processed, EUSR is updated and registration cards printed and distributed.
